PROFESSIONAL SUMMARY

Lead Full Stack Engineer with 7+ years of experience building secure, scalable payroll and payment platforms across fintech, government and enterprise domains. Specialized in Go (Golang), Vue.js, .NET 8, Angular, React.js and Azure cloud-native architectures. Deep expertise in microservices, gRPC, PCI DSS-compliant payment systems and enterprise-grade security with OAuth/JWT and RBAC.

TECHNICAL SKILLS

Go (Golang)

Vue.js

C#

.NET Core / .NET 8

ASP.NET Core

Angular

React.js

Blazor

TypeScript

Microservices

gRPC

REST APIs

RabbitMQ

Kafka

SQL Server

Oracle

PostgreSQL

Redis

Azure

AWS

Docker

Kubernetes

CI/CD

Dapper

CQRS

Clean Architecture

OAuth / JWT

PCI DSS

PROFESSIONAL EXPERIENCE

Lead Full Stack Engineer
Abu Dhabi Ports (Remote)

Jan 2025 – Present

- Leading development of secure, scalable microservices platforms using Go (Golang), .NET 8, Vue.js and Angular.
- Architecting Azure cloud-native deployments with Docker, Kubernetes and automated CI/CD pipelines.
- Designing enterprise-grade payment and workflow integrations with OAuth/JWT-based security.
- Driving engineering standards, code reviews and cross-team technical alignment.

Senior Software Engineer
Ministry of Human Resources and Emiratisation (UAE)

May 2023 – Feb 2025

- Delivered mission-critical government applications for MOHRE including wallet and payroll-adjacent modules.
- Implemented EIDA OTP authentication, RBAC security systems and secure API integrations.
- Led workflow automation initiatives across multi-team government digital transformation projects.

Software Engineer
EBizCharge (Remote)

Apr 2022 – Feb 2023

- Designed and built a secure, high-volume payroll and accounts payable payment platform using Go microservices and gRPC.
- Implemented PCI DSS-compliant fintech architecture handling large-scale payment transaction volumes.
- Built Blazor/Telerik UI frontend and Vue.js components for real-time payment dashboards.
- Integrated secure OAuth/JWT authentication flows across distributed payment services.

Technical Solutions Consultant
Telebu Communications (Remote)

May 2022 – Dec 2022

- Designed IVR, call routing and campaign automation systems integrated with CRM and ticketing platforms.
- Built analytics reporting pipelines and dashboards using React.js and Vue.js frontends.

Software Developer
Macrosoft (Lahore)

May 2021 – May 2022

- Led legacy modernization from Visual FoxPro to .NET Core + Angular with Go-based service rewrites.
- Implemented async messaging with RabbitMQ, Kafka and Redis backed by Azure CI/CD pipelines.

Junior Software Developer

University of Sialkot

Jul 2018 – Apr 2020

- Built ERP, LMS, EMS and Library Management systems using ASP.NET MVC, Entity Framework and SQL Server.
- Implemented role-based security and CRUD-heavy administrative modules for university operations.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University of Gujrat | Sep 2015 – Jun 2019 | Gujrat, Pakistan

CERTIFICATIONS

Certificate of Appreciation – Ministry of Human Resources and Emiratisation (14 Jul 2024)
