Go (Golang)

Vue.js

Angular

React.js

.NET 8

Azure

Microservices

Fintech & Payroll Platforms

7+ Years Experience

PROFESSIONAL SUMMARY

Lead Full Stack Engineer with 7+ years of experience designing and delivering secure, scalable payroll and payment platforms across fintech, government and enterprise domains. Specialized in Go (Golang), Vue.js, .NET 8, Angular, React.js and Azure cloud-native architectures. Deep expertise in microservices, gRPC, PCI DSS-compliant payment systems, OAuth/JWT security and RBAC. Proven track record leading cross-functional engineering teams and driving digital transformation at scale.

TECHNICAL SKILLS

Go (Golang)

Vue.js

Angular

React.js

Azure

C#

.NET Core / .NET 8

ASP.NET Core

Blazor

TypeScript

JavaScript

Microservices

gRPC

REST APIs

RabbitMQ

Kafka

Redis

SQL Server

PostgreSQL

Oracle

Dapper

CQRS

Clean Architecture

AWS

Docker

Kubernetes

CI/CD

OAuth / JWT

PCI DSS

RBAC

PROFESSIONAL EXPERIENCE

- Lead Full Stack Engineer

Abu Dhabi Ports

Remote

Jan 2025 – Present

 - Leading architecture and development of secure, scalable microservices platforms using Go (Golang), .NET 8, Vue.js and Angular.
 - Designing Azure cloud-native deployments with Docker, Kubernetes, and automated CI/CD pipelines for zero-downtime releases.
 - Building enterprise-grade payment and workflow integrations secured with OAuth 2.0 / JWT and role-based access control (RBAC).
 - Driving engineering standards, conducting code reviews and aligning cross-functional teams on technical direction.
- Senior Software Engineer

Ministry of Human Resources & Emiratisation

UAE

May 2023 – Feb 2025

 - Delivered mission-critical government payroll and wallet modules for MOHRE serving hundreds of thousands of employees.
 - Implemented EIDA OTP authentication, RBAC security systems and secure API integrations across government platforms.
 - Led workflow automation initiatives across multi-team digital transformation programs, reducing manual processing by 60%.
 - Earned Certificate of Appreciation from the Ministry (Jul 2024) for outstanding engineering contributions.
- Software Engineer

EBizCharge

Remote

Apr 2022 – Feb 2023

 - Designed and built a secure, high-volume payroll and accounts payable payment platform using Go (Golang) microservices and gRPC.

- Implemented PCI DSS-compliant fintech architecture processing large-scale payment and payroll transaction volumes.
- Developed Vue.js and Blazor/Telerik UI components for real-time payment dashboards and transaction monitoring.
- Integrated OAuth 2.0 / JWT authentication flows across distributed payment services ensuring end-to-end security.

Technical Solutions Consultant

May 2022 – Dec 2022

Telebu Communications Remote

- Designed IVR, call routing and campaign automation systems integrated with CRM and ticketing platforms.
- Built analytics reporting dashboards using React.js and Vue.js frontends with real-time data visualization.

Software Developer

May 2021 – May 2022

Macrosoft Lahore, Pakistan

- Led legacy modernization from Visual FoxPro to .NET Core + Angular, significantly improving performance and maintainability.
- Implemented async messaging pipelines with RabbitMQ, Kafka and Redis backed by Azure DevOps CI/CD.

Junior Software Developer

Jul 2018 – Apr 2020

University of Sialkot Sialkot, Pakistan

- Built ERP, LMS, EMS and Library Management systems using ASP.NET MVC, Entity Framework and SQL Server.
- Implemented role-based security, automated reporting and CRUD modules for 3,000+ active university users.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University of Gujrat

Sep 2015 – Jun 2019 | Gujrat, Pakistan

CERTIFICATIONS & AWARDS

Certificate of Appreciation – Ministry of Human Resources and Emiratisation, UAE | Jul 2024
